

MPO *EZ-WAY*®

Tailored for Dual
800G Transceivers

800G
1.6T

Many MPO connectors on the market are too bulky for dual-interface transceivers. SENKO has engineered dual MPO connectors designed to match the precise QSFP-DD footprint with a “belly to belly” configuration. The user-friendly push-pull tab at the rear, streamlines connector insertion and removal within these confined spaces.

EZ Access

- Seamless Moves, Adds and Changes (MACs)
- Push-pull simplicity
- Easy access even in the densest of panels

High Density Patch Panels

FEATURES

- Compatible with dual MPO
- transceivers
- Industry leading IL 0.25dB
- User-friendly push-pull boot
- Reduced footprint for perfect fit
- Designed for “belly to belly” configurations
