

Reach higher density with

CS® EZ-FLIP CONNECTOR

A new duplex connector designed for dual transceivers which allows the polarity to be switched without connector re-termination

40% HIGHER DENSITY
compared to LC Connector

SWITCH POLARITY

DOUBLE THE DENSITY OVERALL

2x LC STYLE FERRULE
for increased reliability

PUSH-PULL TAB
for superior manageability in high density applications comes in various length and styles

2mm Ruggedized cable

meets GR-326 mechanical load objectives

PREASSEMBLED

APC POLISHING
