# SWITCHABLE UNIBOOT<sup>PLUS</sup>

## Senko Introduces the New LC Switchable Uniboot Latch Lock Ready

The Duplex LC connector for Round cable,  
which allows the polarity to be switched  
without connector re-termination

### SWITCH POLARITY

Allows the fiber polarity to be  
switched at the time of cable  
assembly installation without having  
to re-terminate the connectors

### LATCH LOCK

With Add-on key insert, still  
connects to any conventional  
adapter but prevents accidental  
disconnection. Key insert can be  
removed with no tool.

## LC Switchable Uniboot Connector

### Design

This compact, easy to terminate connector kit, uses standard Senko LC back post and crimp design and therefore can be used with any of the Senko standard LC boots with multiple color options, including the LC Flex-Angle Boot. The connector can be used in any system using LC duplex and quad adapters. The unique design uses round style 2mm or 3mm jacketed cables instead of zipcord duplex cables, reducing cable size and making cable management easier in today's highly dense applications

The housing of the LC Duplex Switchable Connector can be taken apart in the field without the use of any special tooling. This duplex LC allows the fiber polarity to be switched at the time of cable assembly installation without having to re-terminate the connectors.

## SENKO SOLUTIONS REDUCE CABLE PROTRUSION IN PANELS

LC Conventional Boot

LC MINI Boot

LC w/Flex-Angle Boot

LC w/90 Degree Boot

LC w/50 Degree Boot

LC +MINI Boot+Right Angle Clip

### FEATURES

- Uniboot connector aids cable management
- Switchable Connector to change polarity
- NEW- Latch Lock Ready
- MINI Boot ready
- Right Angle Clip for better panel management
- Flex angle boot ready
- Red / Black color indication for easy Polarity Check

*The Senko LC Duplex Switchable connector's unique design allows the use of round style 2mm or 3mm jacketed cable instead of the traditional zipcord duplex cable for a more compact design.*
