

LC *EZ-Flip*® CONNECTOR

Patch with
confidence

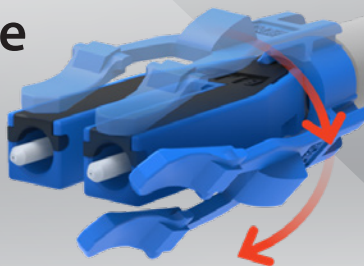

FLEX-ANGLE BOOT
available for easier cable
management

Switch Polarity Without Re-termination or Twisting of the Fiber

With millions deployed, the LC EZ Flip Connector is the connector trusted by many due to its EZ polarity change, reliability, robustness, and consistent low loss performance.

Fastest Polarity Change on the Market

- No tools needed
- No complex gear mechanisms
- No need to open housing
- No need to handle fiber during polarity flip

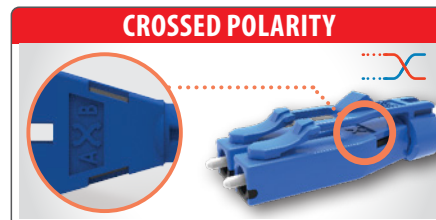

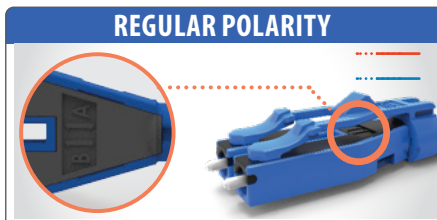

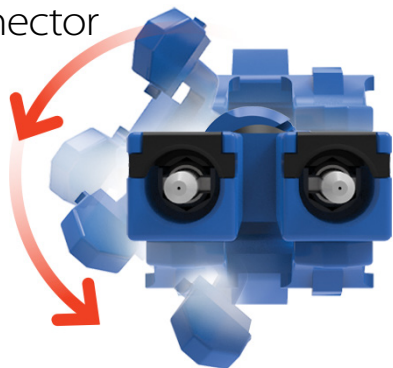

FEATURES

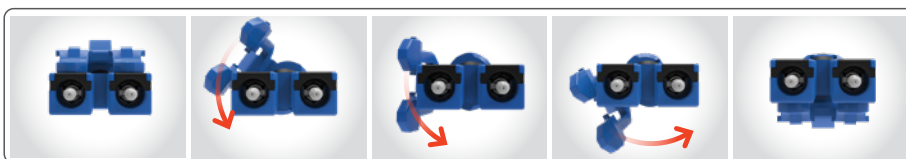

- Polarity reversal without twisting the fiber
- Visual A-B indicator for polarity check
- Short boot design for reduced connector length
- Pre-assembled available for faster kitting time
- Push-pull tab for high density applications in 3 variable lengths
- Uniboot connector aids cable management
- Rugged housing design

LC EZ-Flip CONNECTOR

The EZ-est and quickest polarity reversing LC Connector

How to switch polarity:

Pull-tab for Dense Applications

- Push-pull tab in 3 variable lengths
- Short boot design for reduced connector length

Push-pull
tab variants
